SUMMARY

Oracle Certified Generative AI Professional and Full Stack Developer with 4+ projects spanning e-commerce, finance, and quiz platforms using MERN Stack and Java. Completed a paid internship at HCLTech, delivering 2 production-grade Java web applications using Servlets, JSP, and MVC Architecture. Certified in ReactJS and MERN Stack; proficient in REST APIs, JWT authentication, CRUD operations, MongoDB, and MySQL.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), SQL, HTML5, CSS3

Frontend: React.js, React Router, Tailwind CSS, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, Java Servlets, JSP

Database: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Eclipse, Apache NetBeans

Concepts: REST APIs, JWT Authentication, CRUD Operations, MVC Architecture, MERN Stack, Generative AI, OCI

WORK EXPERIENCE

Java Web Development with AI Intern — HCLTech

Nov 2024 – Mar 2025

- Developed 2 production-level Java web applications (Electro Mart & Instamart) from scratch using Servlets, JSP, and MVC Architecture within a professional SDLC environment using Apache NetBeans and Eclipse.
- Engineered 5+ backend modules — product management, order processing, dynamic pricing, session handling, and MySQL integration — streamlining the complete purchase lifecycle end-to-end.
- Earned a competitive paid internship offer and received HCLTech's official Certificate of Completion (NCVET-approved, Mar 2025) based on strong technical performance.

PROJECTS

Smart Quiz — Full Stack MERN Quiz Application

MongoDB, Express.js, React.js, Node.js

Engineered a MERN quiz platform with JWT auth, 20+ question support, real-time scoring, and MongoDB persistence via 4+ RESTful API endpoints with role-based protected routes.

Architected Node.js/Express.js backend with modular REST API design; built React.js frontend with component-based architecture and full end-to-end CRUD functionality.

Smart Expense Manager — Personal Finance Tracker

JavaScript, HTML5, CSS3

Built a finance tracker with full CRUD for income/expense entries, 5+ category filters, real-time balance updates, and localStorage-based session-persistent data management.

Myntra Clone — React E-Commerce Platform

React.js, React Router, JavaScript, CSS3

Constructed a Myntra-style e-commerce UI with 10+ React components, dynamic product filtering, shopping cart, and multi-page routing via React Router — fully responsive across all devices.

Electro Mart — Java E-Commerce Platform

Java, JSP, Servlets, MySQL

Implemented a Java e-commerce system with product management, order tracking, dynamic pricing (Servlets/JSP, MVC); integrated MySQL for persistent inventory and session management.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional — Oracle University (Oct 2025)
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate — Oracle University (Oct 2025)
- ReactJS — Infosys Springboard (Dec 2025)
- Java Web Development with AI — HCLTech / NCVET (Mar 2025)
- Introduction to AI & Deep Learning — Infosys Springboard (Dec 2025)
- MERN Stack Training — Substring Technologies (Jul–Sep 2025)
- TCS iON Career Edge: IT Primer — Tata Consultancy Services (Dec 2025)
- Introduction to OpenAI GPT Models — Infosys Springboard (Dec 2025)

ACHIEVEMENTS

- Selected for a paid internship at HCL Technologies Limited — a Fortune 500-level IT company — from a competitive applicant pool based on merit-based technical assessment.
- Led organization of college technical fest with 100+ participants, managing end-to-end cross-team coordination, scheduling, and on-ground execution.

EDUCATION

B.Tech in Computer Science & Engineering

Expected Graduation: 2026 | CGPA: 7.3

Goel Institute of Technology & Management, Lucknow
